

Klove Provides Family Friendly Programming and gives a venue for free advertising for non profit local events.
This Advertisement free inspirational music station would no longer be their 24/7 for my family and myself. This is a station that is the predominately listened to station for my family. I would not like to have a station that I know has acceptable programming to be replaced.
I believe that it is the public interest to continue the service provided by klove because the positive and family friendly message is important to the community.
